

# Library Guides

## How can I suggest that a book be bought for the library?

Contact your [subject librarian](#). Each department has a library representative who coordinates spending for their subject so we will need their permission to order a new title – if you are a member of staff it may be best to approach them directly. If you just want to suggest an extra copy of a book your subject librarian may be able to order this from our multiple copies fund.

Unique solution ID: #1171
