

Library Guides

Does the Library hold any theses I can look at?

The library holds all Swansea University theses at doctorate level and some masters. We do not usually keep third year projects, dissertations etc., although the South Wales Miners' Library holds some diploma work.

Information about all physical theses received by the library can be found on [iFind](#), the library catalogue. Please write down the name of the **Author** and the **Title** of the thesis. Take this to the Library Desk to request the thesis. You can use theses anywhere in the library but they cannot be removed from the building.

Selected full-text PhD & MPhil theses are available via [Cronfa](#), the institutional repository.

Further information is available via the [Theses Collection](#) guide.

Unique solution ID: #1207
